

Behaviour Breakthrough

The ultimate behavioural
transformation programme.

About Me

Hello hello!

I'm Shelby, the face behind Clumber K9 and I'm here to help you build a better relationship with your dog.

Through studying canine behaviour and learning from some of the UK's leading trainers, I've developed practical techniques designed for real dogs, real challenges and real life.

My passion for behaviour started after my first dog was tragically euthanised following a serious resource guarding incident — one in which I was the victim. It was heartbreaking, but it sparked a lifelong curiosity about why things go wrong and, more importantly, how we can prevent them.

I later worked in a gundog kennel before Ronnie came along — my curly red whirlwind and, without a doubt, my greatest teacher. A nervous, sensitive dog with plenty of challenges, Ronnie taught me how to build resilience, confidence and trust rather than simply wrap him in cotton wool.

Then came Walter, a rescue with his own quirks and wobble-worthy moments. Together, we've faced plenty of challenges, gone back to the drawing board and learned along the way.

Those dogs shaped how I work today.

Since 2023, I've supported a variety of clients through my 5 star rated service, Clumber Walkies, and I've now expanded into training and behaviour support for owners who need more than just a walk. If you're feeling stuck, overwhelmed or unsure where to start, I'm here to help.

Welcome!!

Behaviour Breakthrough

Better Communication. Better Behaviour.

A structured, intensive behaviour programme designed to help you understand your dog, manage challenging behaviour and build LASTING change

Whats involved?

MONTH 1 – REMOTE FOUNDATION

We start with an initial assessment followed by a month of remote support, giving us time to understand your dog, identify the key behavioural challenges and put effective management strategies in place.

There will be many things you can start straight away at home, which will give us a much greater advantage prior to starting our in-person sessions!

You'll receive guidance and support to begin making changes before we move into hands-on training.

You will receive 4 online sessions, one per week for 4 weeks, and access to WhatsApp messaging support throughout the program

MONTHS 2-3 IN-PERSON TRANSFORMATION

Your final work includes 8 in-person sessions, tailored specifically to you and your dog. These are typically held once per fortnight.

We'll work hands-on through the behaviours that matter most, develop practical skills and build your confidence in managing your dog in real-world situations.

WHAT'S INCLUDED

- ✓ Structured behaviour programme
 - ✓ Written notes & guidance
- ✓ Access to guides and practical training videos
 - ✓ 1 month remote support & management
- ✓ Initial behavioural assessment and tailored plan
 - ✓ 4 online sessions in month 1
 - ✓ 8 x in-person sessions in month 2+
 - ✓ Individualised behaviour strategies
- ✓ Ongoing guidance via WhatsApp throughout the programme
 - ✓ Practical, real-world application
- ✓ A clear framework for continuing your progress beyond the programme
 - ✓ Post programme support

WHAT TO EXPECT

- ✓ Daily Support
 - ✓ Homework
- ✓ Working in real life environments
 - ✓ Accountability
- ✓ Initial behavioural assessment and tailored plan
- ✓ Controlled set ups around behaviour triggers including dogs
 - ✓ A relationship overhaul between you and your dog
 - ✓ Bespoke guidance customised to you
- ✓ Ongoing guidance throughout the programme
- ✓ Open & Honest feedback from a dog behavioural coach
 - ✓ Recommendation on training tools

THIS ISN'T A QUICK FIX.

It's a structured process designed to help you understand why your dog behaves the way they do, what you can do about it, and how to create meaningful, sustainable change.

One dog. One tailored plan.

CASE STUDIES

I couldn't recommend Shelby enough! When we first started training chop was scared of his own shadow! He used to bark at everything on walks and due to his size (cane corso) people found him massively intimidating! Walks became stressful for both me and chop he used to walk around with his ears back and tail in between his legs. Fast forward to now he enjoys his walks with his tail up in the air and strutting around confidently! Not only did Shelby help bring out chop's confidence she brought out mine too. She genuinely cares about the dogs she works with and only wants the best for them! Thank you so much! 🐾

Shelby has been amazing to work with and has helped our dog Quinn so much with her fear reactivity around other dogs. From the start, Shelby was incredibly kind, patient, and understanding, and really took the time to listen to what we wanted out of our sessions.

She put together a plan that felt totally tailored to us and always made space for our questions and thoughts. Shelby explains things in a way that actually makes sense, with lots of demonstrations and hands-on guidance so you don't feel overwhelmed. We leave each session feeling more confident and supported, and we're making great progress with Quinn. Working with Shelby has been the best thing we've done for Quinn and us. We couldn't recommend her more 🐾

We had an amazing experience working with Shelby while training our Bernedoodle. When we started, our dog was very shy and reactive around other dogs, and we weren't always sure how to help her. Shelby not only worked patiently with our dog, but also helped us understand her behavior better, which made a huge difference in our training outcomes. Thanks to Shelby's knowledge, guidance, and encouragement, our Bernedoodle has grown so much in confidence and overall behavior. We've seen incredible progress and feel much more equipped to support our dog moving forward. We're so grateful for Shelby and highly recommend her to anyone looking for a trainer who truly cares about both the dog and the owners.

CASE STUDIES

Shelby turned our life around with our Maltipoo.

We couldn't thank her enough for what she's done.

Her approach to training is amazing. We went to resolve an issue with barking and reactivity but by the end of 6 sessions we had a whole new dog.

If you're considering training, please highly consider Clumber k9. The price is fair, the results are worth it and you won't regret it.

Shelby has helped me so much with my boy Pablo. Our walks used to be really stressful with Pablo always pulling on the lead, having minimal recall and needing to say hello to every dog he walked past (and any rabbit/cat in sight). Shelby tackled each one of our issues and now our walks are back to being one of my favourite parts of the day.

Shelby really took the time to explain the rationale behind the training. I came away from our training sessions feeling so much more confident and knowledgeable on Pablo's behaviour and continue to practice the training techniques to make sure he doesn't slip back into old habits. Genuinely couldn't recommend Shelby more!

★★★★★ 12 weeks ago

We had 5 sessions with Shelby to work on our dogs reactivity while on the lead. We instantly felt at ease with her and liked her holistic approach. We didn't jump straight into walking the dog around others. Instead we started with play and built from there. We've seen a massive difference in Bella's behaviour and Shelby gave us a lot of good tips and things to work on with the dog at home that has helped with her obedience. We would highly recommend her to anyone and we are thinking of having some further sessions in future.

• 1 CLEAR PLAN

• 1 PAYMENT

If you're ready to stop going round in circles and start working with a clear, structured approach, this is your next step

THIS IS WHERE BEHAVIOUR CHANGE BECOMES REAL

Over the course of the programme we'll turn challenging situations into calm, manageable moments whilst helping you understand what's driving your dog's behaviour and, most importantly, what to do about it.

You could be working towards results such as:

Passing other dogs calmly

Reduce tension, lunging or over-excitement and develop a clearer, more controlled response when meeting dogs on walks.

Safely removing items

Build a reliable response around dropping or giving up toys, food, stolen items or other objects without confrontation.

Managing visitors

Help your dog respond more calmly when people arrive at the door or enter your home.

More relaxed walks

Build practical strategies for navigating distractions, triggers and busy environments with greater confidence.

Understanding the behaviour

Learn to recognise triggers, body language and patterns so you can respond proactively rather than constantly reacting.

Creating calmer everyday life

Develop routines and skills that help your dog make better choices in real-life situations — not just during training sessions.

THE RESULT?

You'll have a clearer understanding of your dog, practical strategies you can use in everyday situations, and a personalised plan designed to help you continue making progress beyond the programme
